

Cyber Security

Piracy is no longer just a matter of gangs entering your vessel in the middle of the night. The threat of cyber space is building up rapidly with the potential of posing even bigger risks, also for the crews. Therefore, maritime Cyber Security training is critical for your safety.

The STCW.online Cyber Security online course provides knowledge about common cyber attacks that ship's crew can face. Moreover, the Cyber Security online course discusses best practices for the protection of cyber threats.

This course aligns with:

The ISM Code (MSC.428 (98) Maritime Cyber Risk Management in Safety Management Systems)

MSC-FAL.1/Circ.3 Guidelines on maritime cyber risk management

ISO/IEC 27001 – Information Security Management, 2013

BIMCO Guidelines on Cybersecurity Onboard Ships(v4)

Cyber Security is part of the ISM Code of [IMO](#) – MSC Circ 1526.

The STCW Cyber security course can also be used excellently by shipbrokers.
