

# Cyber Security for Superyacht Crew

Piracy is no longer just a matter of gangs entering your yacht in the middle of the night. The threat of cyber space is building up rapidly, with the potential of posing even bigger risks, to the owners, their family and the crew. Good training can help.

This Cyber Security for Superyacht online course provides you with knowledge about common cyber attacks that the ship's crew can face. Additionally, the course suggests best practices for the protection against cyber threats. As a result, all aboard are better protected.

This course aligns with:

The ISM Code (MSC.428 (98) Maritime Cyber Risk Management in Safety Management Systems)

MSC-FAL.1/Circ.3 Guidelines on maritime cyber risk management

ISO/IEC 27001 – Information Security Management, 2013

BIMCO Guidelines on Cybersecurity Onboard Ships(v4)
