

Asbestos Awareness

This asbestos awareness course is designed to give an awareness of the risks involved of working with asbestos, and then help workers develop the skills required to put in place the necessary control measures to ensure that any asbestos work is carried out as safely as possible.

Please note that as this is a Category A Asbestos Course, the information in this course is an awareness level of training. It does not allow you to work with asbestos or conduct asbestos removal. Such work requires practical training additional to this course.

STCW.online™ Asbestos awareness

What is asbestos?

Asbestos is a long fibrous mineral that comes in many colors.

The main types of asbestos are:

- ❑ Chrysotile (white asbestos)
- ❑ Amosite (brown asbestos)
- ❑ Crocidolite (blue asbestos)

Chapter 1 – Working with asbestos << previous chapter Page 2 of 15
